100% RECYCLED PADDED MAILERS

DESCRIPTION:

There is just no denying the earthy appeal of our 100% Recycled Padded Mailers. These bad boys scream, "EARTH MATTERS!"

Recovered newspaper is matted into a layer of cushioning -- a pillow of paper of sorts -- and then sandwiched between two solid layers of recycled kraft paper. The result is one heck of an irrefutably eco-friendly cushioned mailer.

Not only is this mailer constructed inside and out from recovered trash, but once it has made its journey and served its purpose, EcoEnclose 100% Recycled Padded Mailers can easily be redeposited back into the recycling stream. With its dynamic all-paper constitution, you'll purchase with the peace of mind in knowing that this mailer is an absolute proverbially piece o' cake to recycle...no DESTINATION: LANDFILL for this humdinger of a protective mailer!
